April 15 deadline for teacher grant!

Ben-q, walked the school on Friday, Sarah was called and said that smart boards needs to be moved in order mount the ben q's. The original ones were mounted in the wrong place, mostly the K-1 hall. There is only 3 in the entire school in the right place. Giving us a quote, one room that needs a projector. The AU have Epson projectors and prefer them to the Ben-q. Waiting on the decision, then we are finishing off K-1, then moving on to the others. The more you do, the better deal you get. Some of them are 4-5 grade hall, there are 7 of them ready to go and getting a quote for more. Giving them a quote with moving the boards. The company mounted them in the wrong place. Want to see what the company is going to charge, will take a long time to go through the process. We have people that was there. We have \$20k. lets look into having someone to come in and move the boards.

Eagle Fun Fest- track 1 pre-orders starting to come in. the rest will go home in early March. Usually do 1 for all tracks, this year doing separate for each track. It is mostly all set up.

Meeting adjourned 7:07pm
